Raymond Terrace Business Association welcomes you to the March Business Breakfast, to be hosted at Motto Farm Motel, Heatherbrae.

Current and future financial members who renew membership or join prior to the March breakfast commencement will receive a free **Complimentary March breakfast**

Having successfully secured \$50,000 in State Government funding for the implementation of a CCTV surveillance system within the Raymond Terrace Town Centre and surrounding areas this breakfast will also feature a presentation from RhinoCo Technology.

Nathan Walters and Terri Turnbull of RhinoCo Technology will be displaying some of the systems that the association may look to install.

RhinoCo will also be outlining the current technologies available for both large streetscape systems and retail or industrial systems.

This breakfast provides the perfect opportunity for members to envisage how the CCTV may benefit their store or investigate a self contained CCTV model direct with the manufacturer.

Following on from last month's breakfast we will again be looking at the 10 Big Ideas Concept and discussing some of the ideas put forward.

This month's breakfast will also feature set time for networking activities so once again ensure you bring along your business cards.
